

## Safety data sheet

### 1. Product Identification

Commercial name of the product:	Pirobloc HTF-UltraClean
Use of the product:	Heat transfer fluid
Company:	Pirobloc S.A. Av. Castell de Barberà, 31 P.I. Santiga 08210 – Barberà del Vallès (Barcelona) – Spain Telf. +34 937 189 064 Fax +34 902 908 812 E-mail: sales@fluidotermico.com
Review date:	01/08/2016
Emergency telephone:	+34 937 189 064 (only in working hours)

### 2. Identification of the product risks

This product it is not considered as dangerous according with the Regulations about classification, packaging and labeling of dangerous preparations.

### 3. Composition

Chemical composition : Synthetic oils

Components	CAS nº	Normal concentration	Units
Subproduct of polyethylbenzene	64742-56-9	75 - 100	%

#### 4. Emergency and first aid process

- General Instructions  
It is not necessary any special action
- Contact with the skin  
Clean with water and neutral soap. Take off the contaminated clothes and wash them before to reuse
- Contact with eyes  
Clean with plenty of water during at least 15 minutes
- Inhalation  
Carry to the fresh air. Go to the doctor in case of respiratory arrest and apply artificial massage
- Ingestion  
Not induce to the vomiting. Look for medical assistance

#### 5. Safety measures against fires

- Adequate extinction systems  
Powder, CO<sub>2</sub>, Foam
- Inadequate extinction systems  
Pressurized water
- Risks of exposition  
In the thermal decomposition and combustion can come carbon oxide
- Special protection equipment  
Wear a complete equipment to be used with chemical products and bring an autonomous respiratory aid

#### 6. Measures in case of accidental waste

- Individual protection  
Use adequate gloves and protective clothes
- Environmental protection  
To prevent the contamination of the soil, water and drainings. Notify to the authorities in case of spill to the public sewer system
- Cleaning methodes  
Use absorbent materials and place them in a container for waste materials which can be closed. Clean the treated zone with water

## 7. Handling and storage

- Handling  
Do not eat, drink or smoke in the workplace
- Storage  
Keep far from ignition sources. Store in the original safety closed recipient and at room temperature
- Specific uses  
Not applicable

## 8. Controls of Exposure / Personal protection

- Control of the exposing limits  
Exposure limit during working with mineral fluid:
  - VLA-ED\*: 5 mg/m<sup>3</sup>
  - VLA-EC\*: 10 mg/m<sup>3</sup>\*According with the list of Environmental Limit Values of Professional Exposure adopted by the Instituto Nacional de Seguridad e Higiene en el Trabajo (INSHT) for the year 2007
- Personal protection
  - Respiratory: In the case of respiratory failure use the adequate respiratory equipment
  - Hands: Adequate gloves
  - Eyes: Adequate safety glasses
  - Skin: Adequate clothes for work and closed shoes
- General measures of protection and health  
The necessary in companies handling chemical products

## 9. Physical and chemical properties

Aspect: liquid	Fussion point: -9 °C
Color: Amber	Boiling point : >350 °C
Odor: light	Flammability (flash) point: >185 °C
Relative density: 0,895 g/cm <sup>3</sup>	Auto-flammability: N.A. °C
Kinematic viscosity: 20 cSt	Partition coefficient: N.D.
Solubility in water: Not soluble	Explosion danger : N.A.
Solubility in oil: Soluble	Solvent contents: N.D.
pH Concentrated: N.A.	Evaporation speed: N.D.
pH at N.A. %: N.A.	Comburent properties: N.A.
Vapour pressure: N.D.	Other:

N.A.: Not of application – N.D.: Not determinate

## 10. Stability and reactivity

- Conditions to avoid: Heat surfaces, ignition sources
- Materials to be avoid: acids and strong oxidation agents
- Dangerous decomposition products: During the thermal decomposition and combustion can come carbon oxide

## 11. Toxicological information

- Oral toxicity: it can feel sick or it can produce irritation of the digestive system
- Toxicity by inhalation: In appreciable quantity and through the respiratory canals, it can cause headache.
- Dermal toxicity: the prolonged contact can produce irritation on the skin
- Eye toxicity: the prolonged contact can produce eye irritation
- Sensitization: Effects of sensitization are unknown
- Additional Information: not of application

## 12. Ecological informations

- Mobility: not determined
- Bioaccumulation: not determined
- Biodegradability: by its composition, this product has a slow biodegradability
- Ecotoxicity: not determined
- Other harmful effects: prevent the pollution of the soil, water or drainage systems

## 13. Notes for elimination

- Product: to incinerate or to place according with the local regulations
- Packing: the packs not contaminated will be treated as the domestic wastes or as recyclable material. The contaminated ones will be treated as the product
- State and EU legislation: Law 10/1998 of Residues, Law 11/1997 of Packing and Packing Residues and subsequent modifications. Real Decreto 679/2006 about used oils

#### 14. Transport information

The transport is not dangerous. In the case of accident and product spillage, act according with point 6.

#### 15. Regulations Information

The product is not classified as dangerous according with the Regulation about the classification, packing and labeling of dangerous compounds

The previous classification is applicable to the way of supply of the product and not as an emulsion.

#### 16. Other informations

The information given in this Safety data sheet has been written according with the REGULATION (CE) n° 1907/2006 OF THE EUROPEAN PARLAMENT AND THE COUNCIL of the 18th December 2006 relative to the register, the evaluation, the authorization and the restriction of the chemical substances and compounds (REACH). The European Agency of Chemical Substances and Compounds is created and it modifies the Directive 1999/45/CE and repeals the Regulation (CEE) n° 793/93 of the Council, and the Regulation (CE) n° 1488/94 of the Commission, as well as the Directive 76/769/CEE of the Council and the Directives 91/155/CEE, 93/105/CE and 2000/21/CE of the Commission.

**This information is based in the actual state of our knowledge. Its objective is to describe our products from the safety side, so we do not grant concrete properties of the products.**
